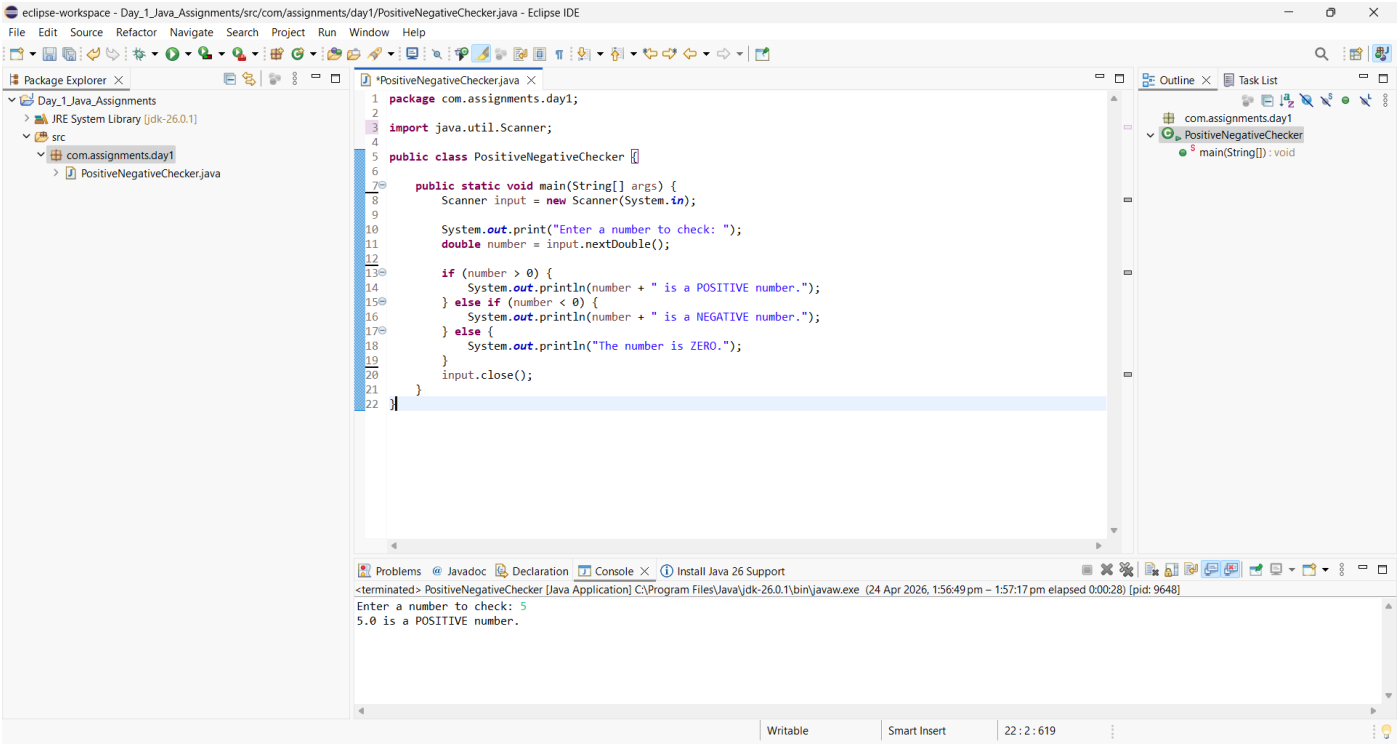
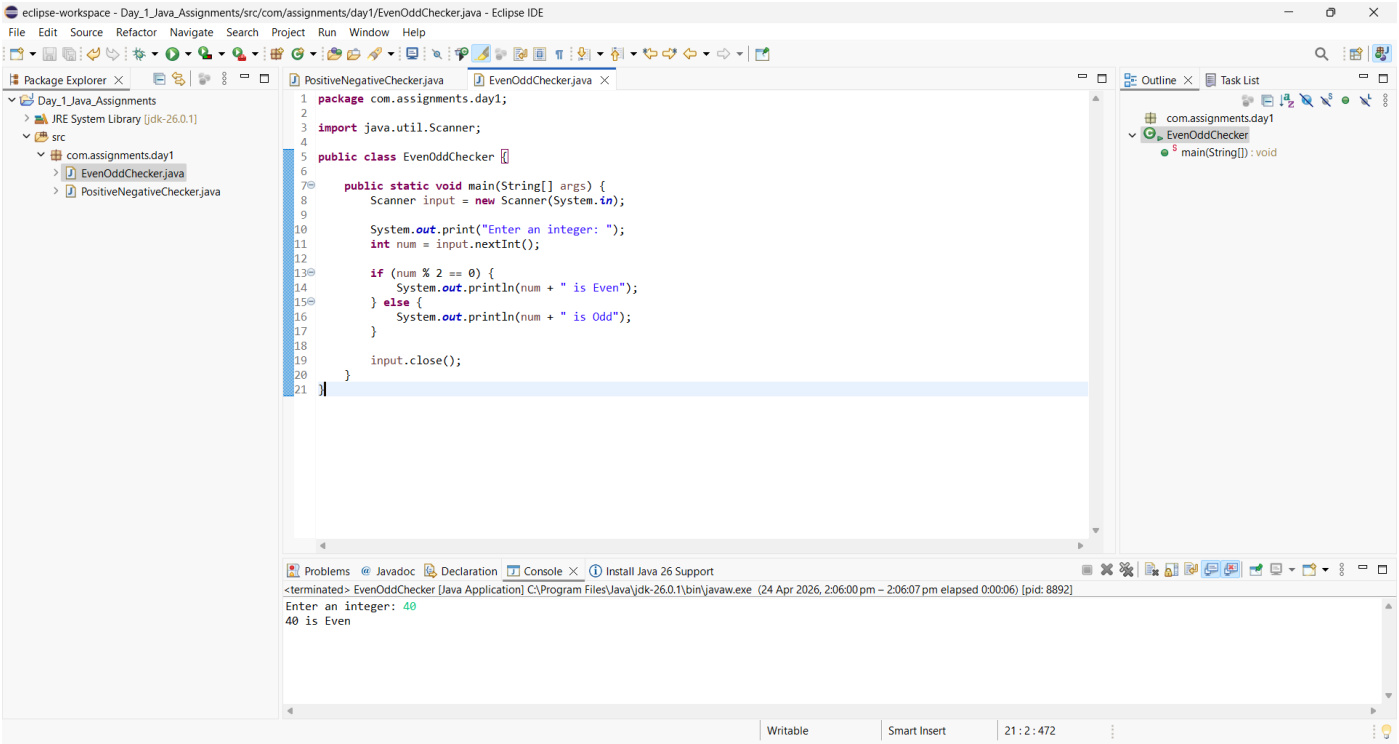
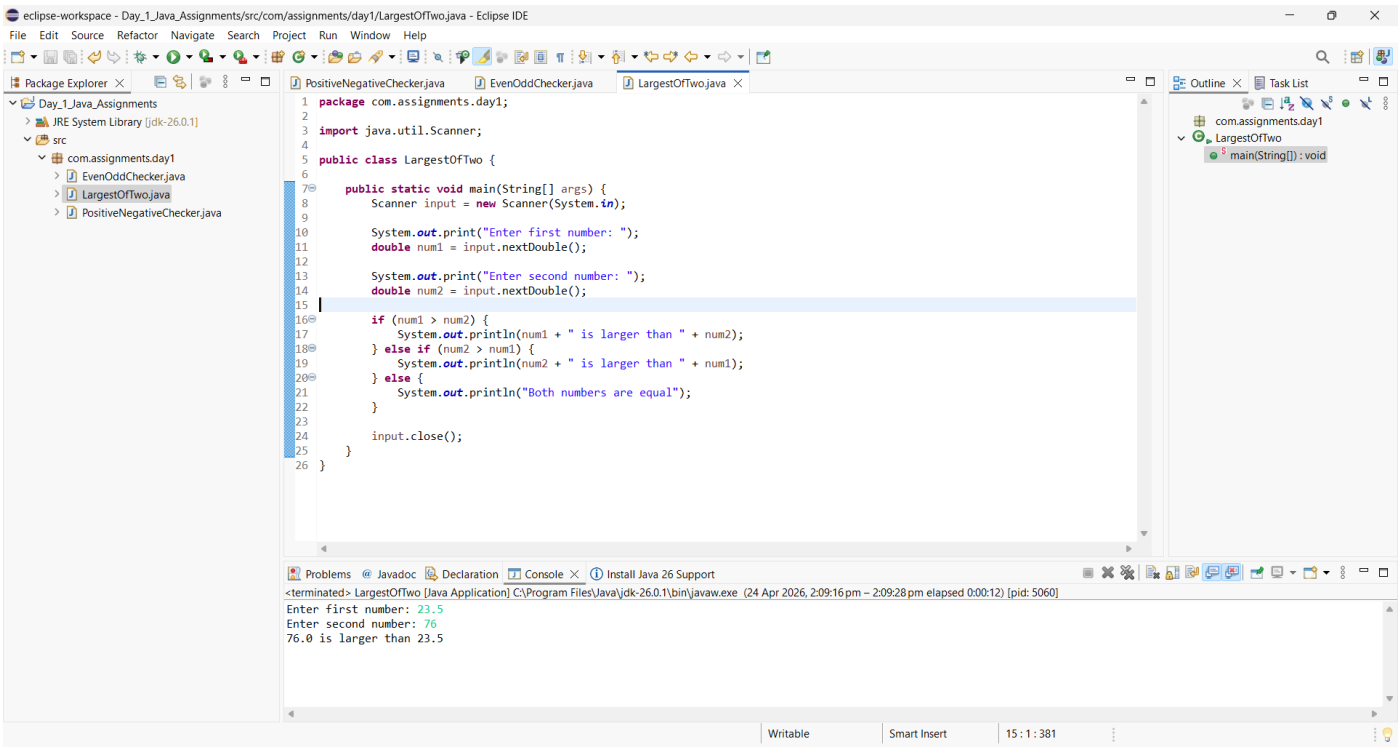
1. Check whether a number is positive or negative



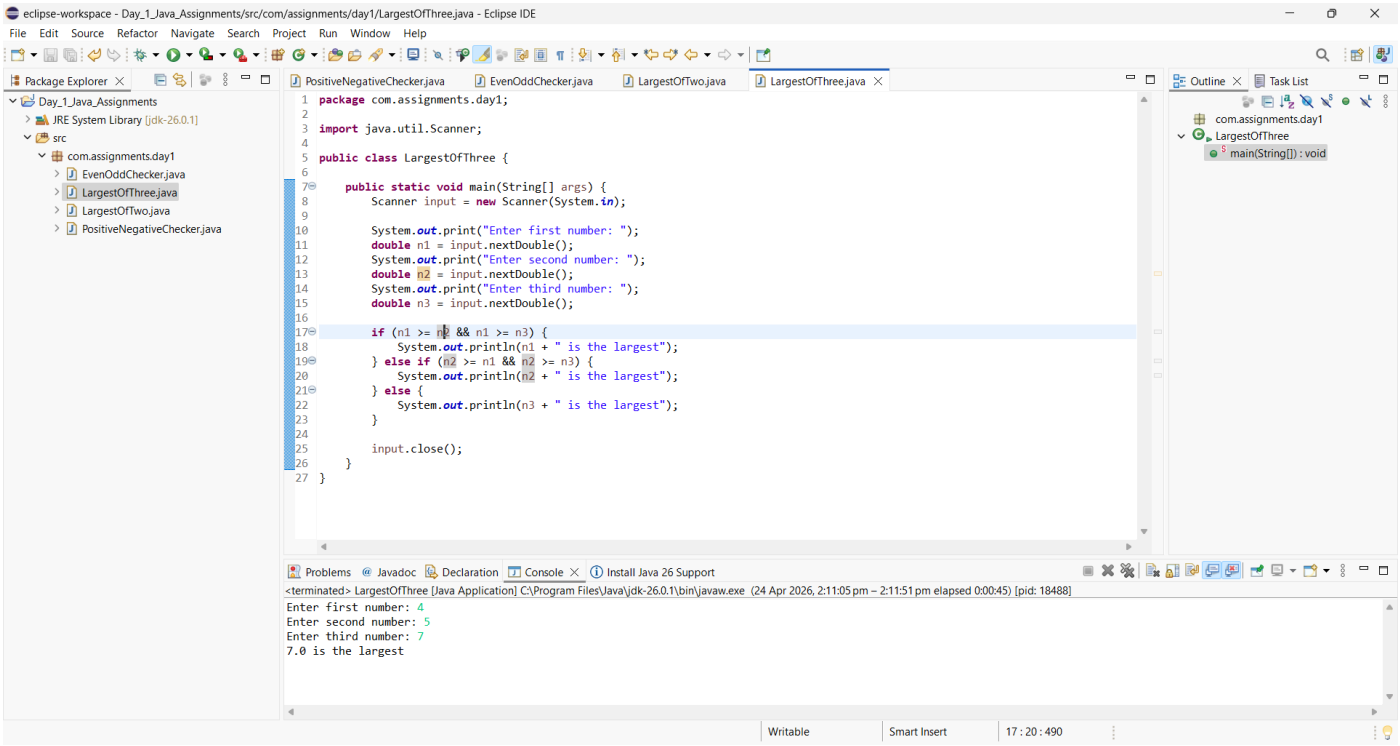
2. Check whether a number is even or odd



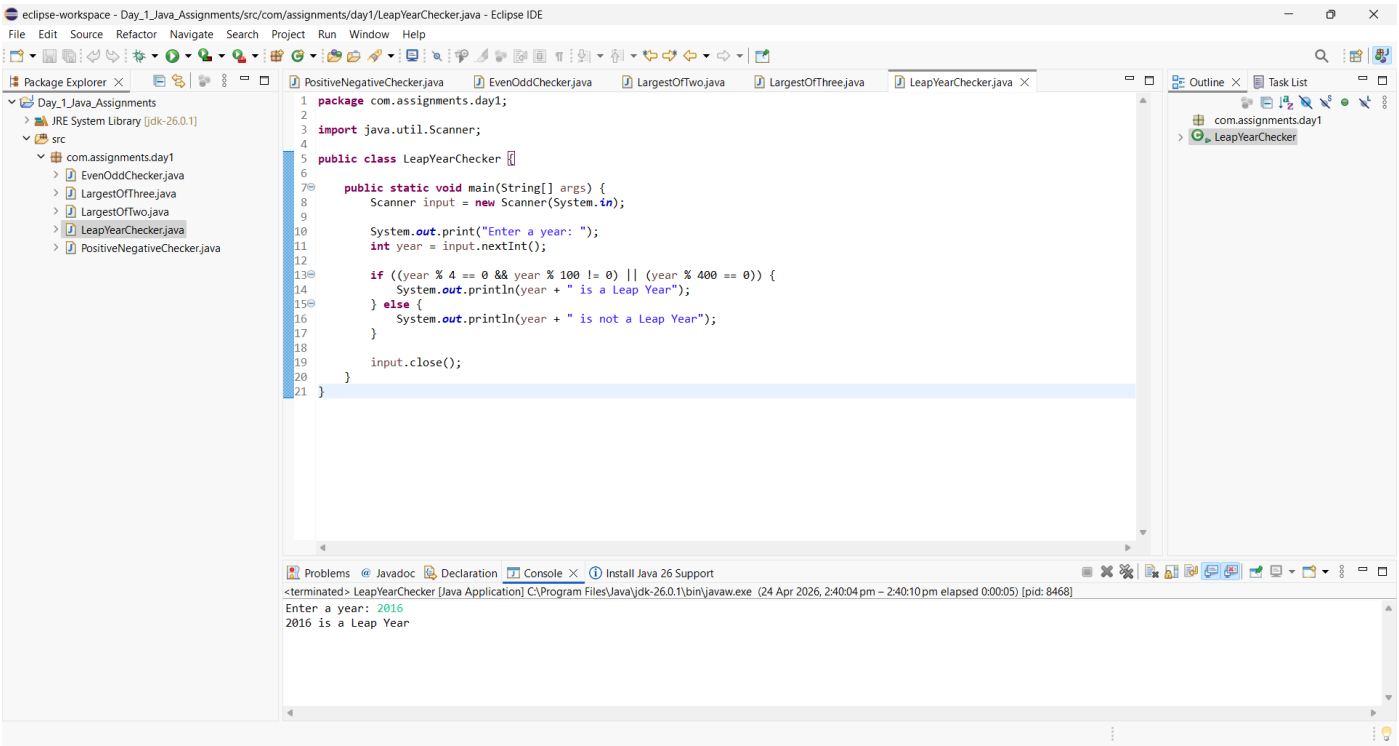
3. Find the largest of two numbers



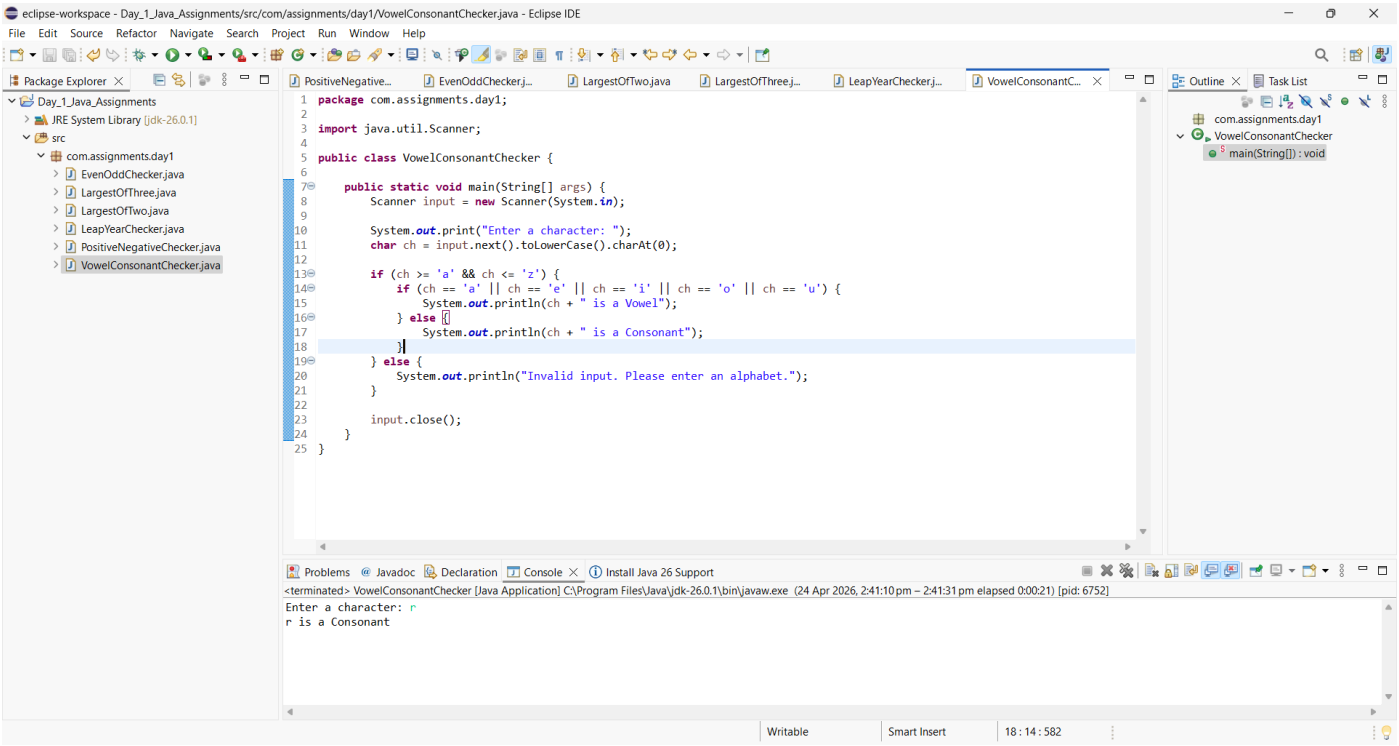
4. Find the largest of three numbers



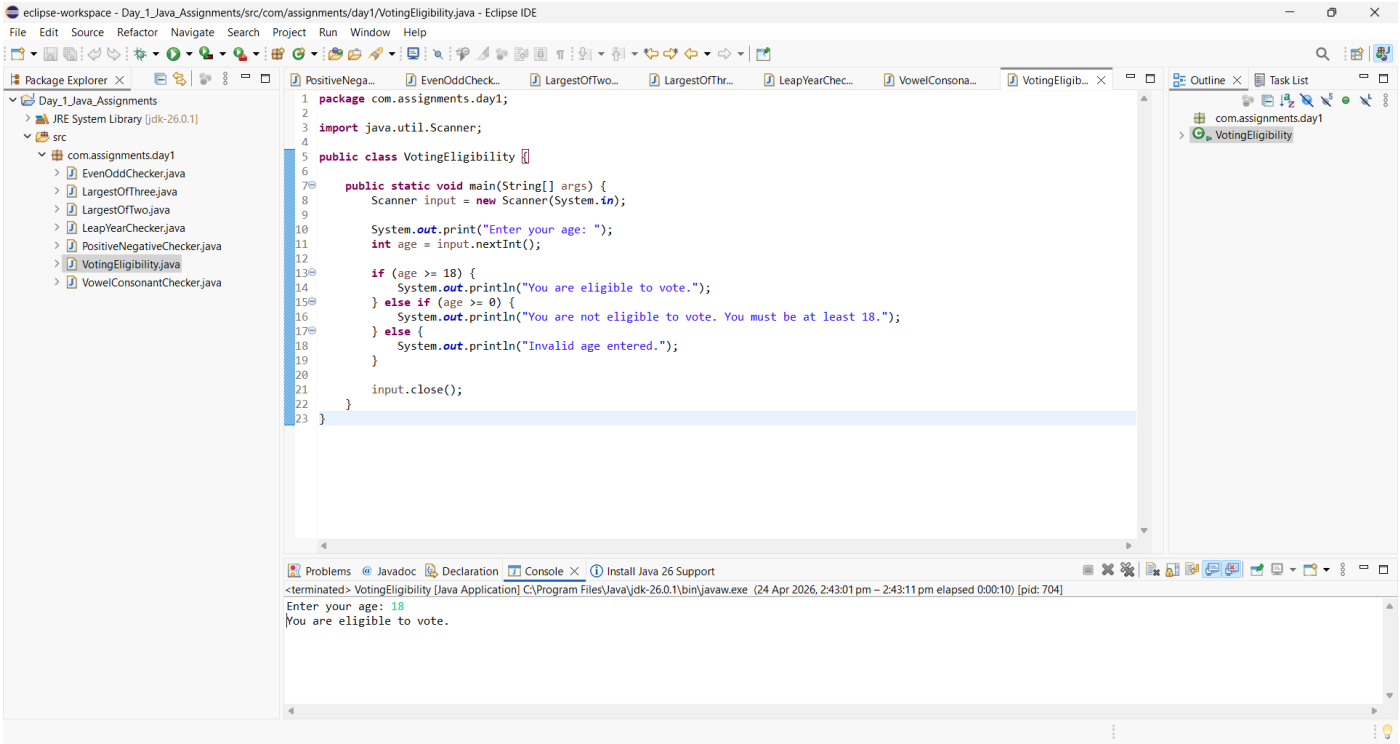
5. Check whether a year is a leap year



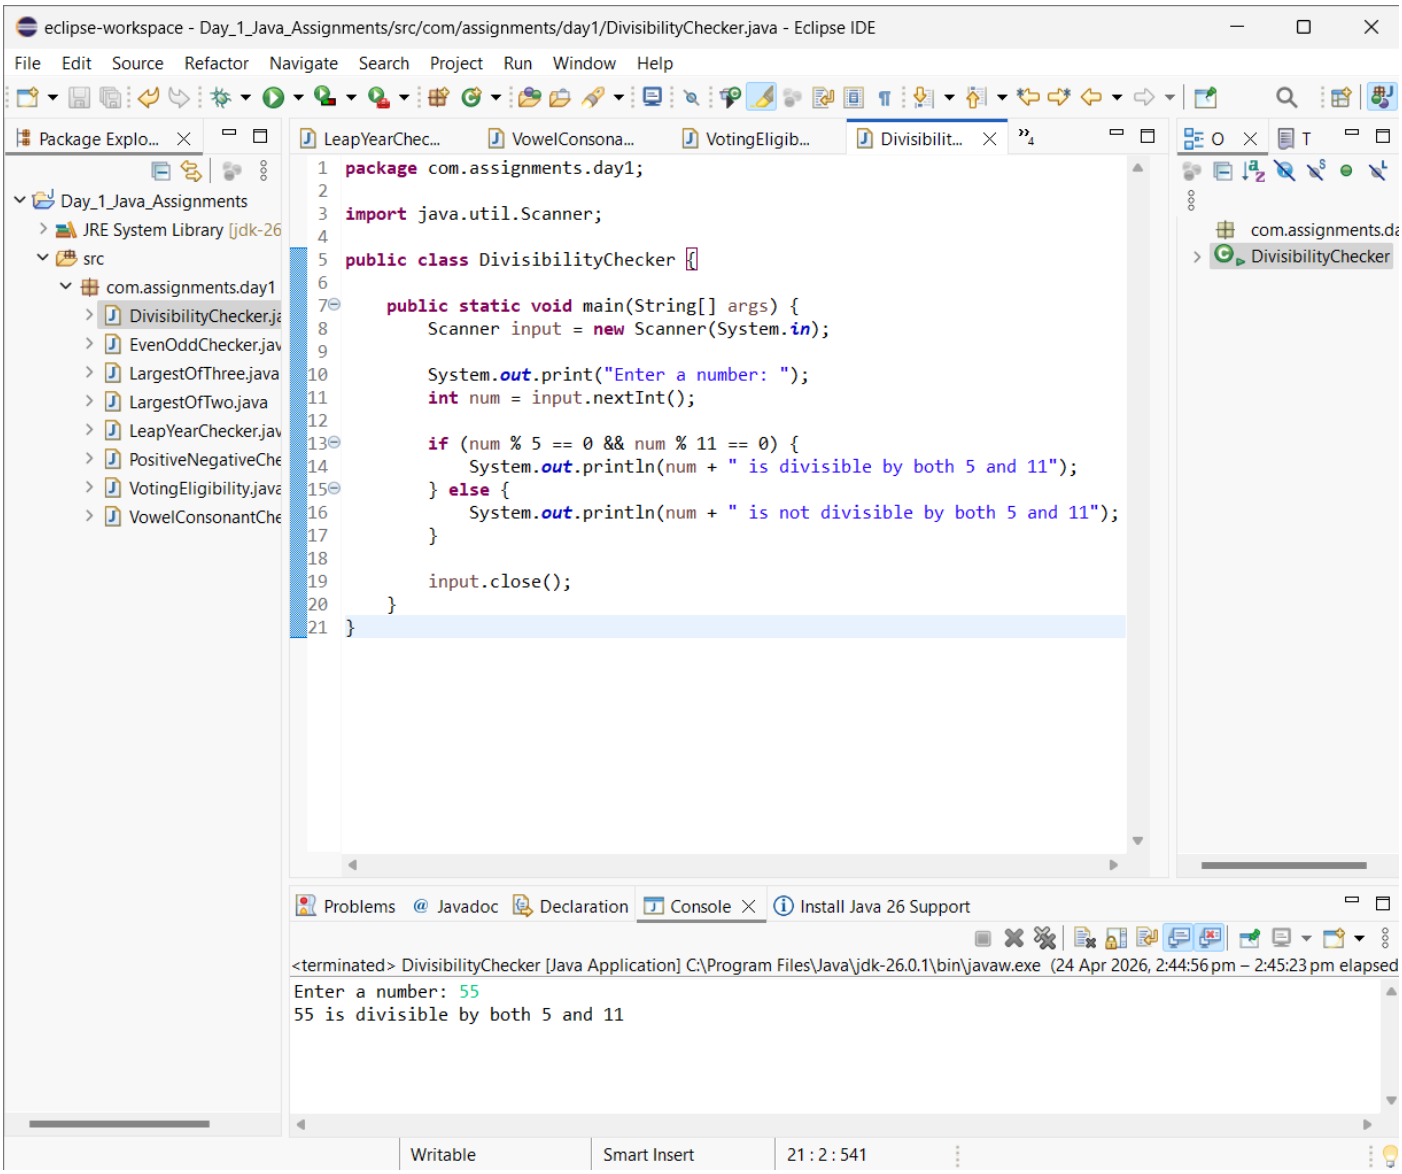
6. Check whether a character is a vowel or consonant



7. Check eligibility for voting based on age



8. Check whether a number is divisible by 5 and 11



9. Find grade based on marks (if-else-if ladder)

eclipse-workspace - Day_1_Java_Assignments/src/com/assignments/day1/GradeCalculator.java - Eclipse IDE

```java
import java.util.Scanner;

public class GradeCalculator {

    public static void main(String[] args) {
        Scanner input = new Scanner(System.in);

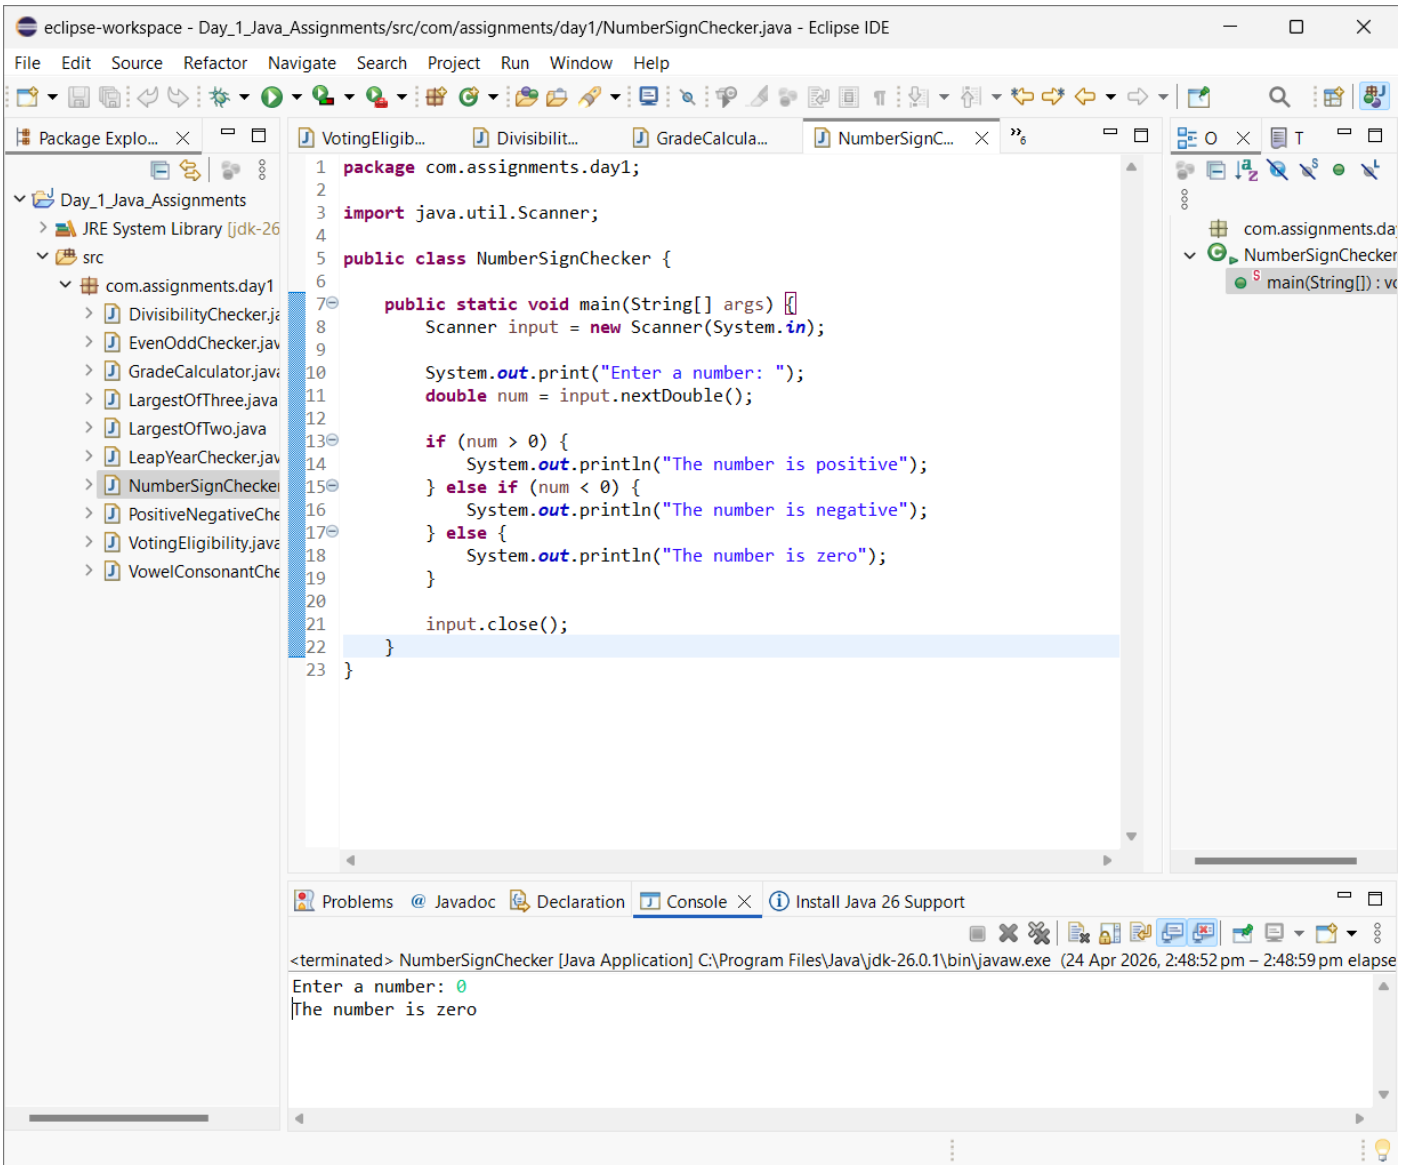
        System.out.print("Enter your marks: ");
        int marks = input.nextInt();

        if (marks >= 90 && marks <= 100) {
            System.out.println("Grade: A+");
        } else if (marks >= 80) {
            System.out.println("Grade: A");
        } else if (marks >= 70) {
            System.out.println("Grade: B");
        } else if (marks >= 60) {
            System.out.println("Grade: C");
        } else if (marks >= 50) {
            System.out.println("Grade: D");
        } else if (marks >= 0 && marks < 50) {
            System.out.println("Grade: Fail");
        } else {
            System.out.println("Invalid marks entered.");
        }

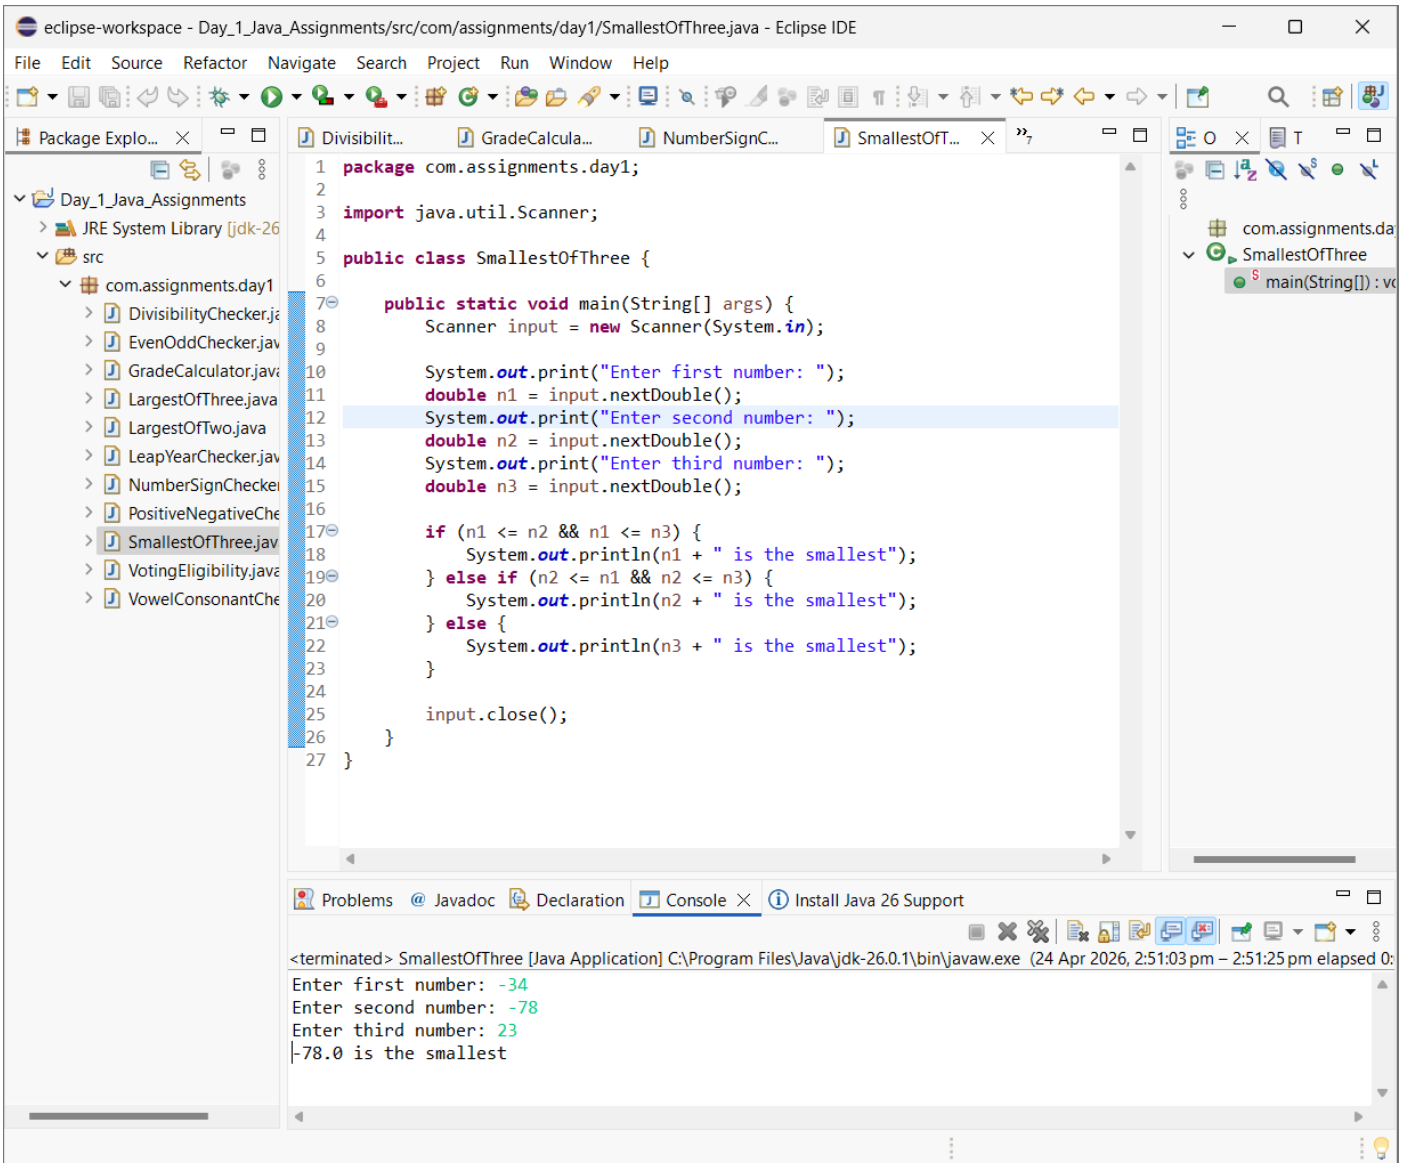
        input.close();
    }
}
```

```
<terminated> GradeCalculator [Java Application] C:\Program Files\Java\jdk-26.0.1\bin\javaw.exe (24 Apr 2026, 2:47:10 pm – 2:47:17 pm elapsed 0:
Enter your marks: 89
Grade: A
```

10.Check whether a number is zero, positive, or negative



11. Find the smallest of three numbers



12.Check whether a person is eligible for a loan (age + salary condition)

eclipse-workspace - Day_1_Java_Assignments/src/com/assignments/day1/LoanEligibility.java - Eclipse IDE

```java
package com.assignments.day1;

import java.util.Scanner;

public class LoanEligibility {

    public static void main(String[] args) {
        Scanner input = new Scanner(System.in);

        System.out.print("Enter your age: ");
        int age = input.nextInt();

        System.out.print("Enter your monthly salary: ");
        double salary = input.nextDouble();

        if (age >= 21 && salary >= 25000) {
            System.out.println("Congratulations! You are eligible for a loar
        } else {
            System.out.println("Sorry, you do not meet the eligibility crite
        }

        input.close();
    }
}
```

```
<terminated> LoanEligibility [Java Application] C:\Program Files\Java\jdk-26.0.1\bin\javaw.exe (24 Apr 2026, 2:52:21 pm – 2:52:45 pm elapsed 0:00
Enter your age: 35
Enter your monthly salary: 30000
Congratulations! You are eligible for a loan.
```

13.Check whether a number is divisible by 3 or 7
