EPIC 1 — User Authentication & OTP

Epic Key: TIRA-EP1 **Priority:** High **Label:** authentication hotfix-required user-blocking **Status:** In Progress **Description:** Covers all flows related to user login, registration, OTP delivery, and session management for the Tira Beauty mobile app.

STORY 1 — Linked to Epic 1

Key: TIRA-ST-01 **Summary:** As a user, I should receive an OTP on my registered mobile number within 30 seconds so that I can log in securely. **Epic Link:** TIRA-EP1 **Priority:** High **Status:** In Progress **Labels:** authentication otp android ios **Assignee:** Dev Team — Backend **Story Points:** 5

Description:

As a registered user, I want to receive a One-Time Password (OTP) on my mobile number, So that I can securely verify my identity and access my account.

Acceptance Criteria:

- Given I enter a valid registered mobile number, When I tap "Send OTP", Then I receive an SMS within 30 seconds
 - Given the OTP is not received, When I tap "Resend OTP" after 60 seconds, Then a new OTP is sent successfully
 - Given I enter the correct OTP, When I tap "Verify", Then I am logged in and redirected to the Home screen
 - Given I enter an incorrect OTP, When I tap "Verify", Then an error message "Invalid OTP" is displayed
-

TASK 1 — Linked to Story 1

Key: TIRA-TASK-01 **Summary:** Integrate SMS gateway API for OTP delivery on Android and iOS **Parent Story:** TIRA-ST-01 **Epic Link:** TIRA-EP1 **Priority:** High **Status:** To Do **Labels:** authentication otp android ios needs-backend-fix **Assignee:** Backend Developer **Estimate:** 3 hours

Description: Integrate and configure the SMS gateway (e.g., Twilio / MSG91) to handle OTP dispatch for both Android and iOS platforms. Ensure retry logic and timeout handling are implemented.

Subtasks:

- Configure API keys and environment variables for SMS gateway
- Write OTP generation and expiry logic (valid for 5 minutes)
- Test OTP delivery on real Android and iOS devices
- Handle edge cases: invalid number, network timeout, gateway failure

Definition of Done:

- OTP delivered within 30 seconds on both platforms
 - Retry works after 60-second cooldown
 - All edge case scenarios handled and tested
-

BUG 1 — Linked to Story 1

Key: TIRA-BUG-01 **Summary:** OTP not received during login and registration on Android and iOS **Parent Story:** TIRA-ST-01 **Epic Link:** TIRA-EP1 **Issue Type:** Bug **Priority:** High **Severity:** Major **Status:** Open **Labels:** severity-major priority-high authentication otp android ios build-v3.2.1 hotfix-required user-blocking needs-backend-fix smoke-testing **Assignee:** Backend Developer **Reporter:** QA Engineer **Build:** v3.2.1 **Environment:** Android 13 / iOS 16 — WiFi & 4G **Reproducibility:** 100%

Steps to Reproduce:

1. Open the Tira Beauty app
2. Tap "Sign In" on the home screen
3. Enter a valid registered mobile number
4. Tap "Send OTP"
5. Wait up to 5 minutes for SMS delivery

Expected Result: OTP SMS is received within 30 seconds on the registered mobile number.

Actual Result: OTP is never delivered even after 3–5 minutes of waiting. Tapping "Resend OTP" also fails to trigger any SMS delivery.

Business Impact: Users are completely blocked from logging in or registering. This affects 100% of new and returning users and renders the app entirely inaccessible.
